Kind of organization: Company

BROADBAND SERVICE DEPLOYMENTS

Clearcable™ Networks was founded in 2004 in Hamilton, Ontario, initially providing broadband and telephony consulting, implementation, and support services to cable and telephone companies. Clearcable™ is founded on the principles of integrity, reliability, and innovation. As such, it has invested heavily in being able to assist its' clients to adopt new technology quickly through research and development, building technical acumen, employing in-house an development team, and launching specialized services for telecommunications companies and rural municipalities.

In 2016, located in the Hamilton Technology Centre, Clearcable™ continues the traditional strategic consulting business, focuses on broadband deployment, support, and custom development, and is endeavouring to evolve online streaming applications for service providers. Overall, the Clearcable™ employs 41 full time people in three provinces, operates its own network facilities, and Toronto, and manages broadband facilities, networks, and services nationwide for more than 60 Canadian service providers and an additional 14 international service providers.

Clearcable™ has three times been listed on Profit's list of Canada's Fastest Growing Companies and has been selected as the Canadian Cable System Alliance Supplier of the Year in 2010 and the Canadian Independent Telephone Association Supplier of the Year in 2016. Clearcable™ is a founding private sector member of the Intelligent Community Forum Canada and a avid participation in the ICF's global mandate.

Clearcable™ builds better broadband for service providers and communities of all sizes.
